## 2 INTRODUCTION

This Annex is a tool for tracking documentation history and current status of documents relevant for the EETS Provider related to the Danish Kilometer Tolling Scheme. This includes the EETS Domain Statement including Annexes, the Agreement including Annexes and the Addendum including Appendices.

## 3 USER GUIDE

The following is a description of each column used in the overview table in section 4 below:

- (i) **Document ID:** Is the identification number of the document.
- (ii) **Document title:** Is the current name of the document.
- (iii) **Distribution:** There are three different distribution categories
  - a. Red which means no distribution of the document to external parties.
  - b. Yellow which means that distribution of the document to external parties could be considered.
  - c. Green which means unrestricted distribution of the document to external parties.
- (iv) **Status:** There are three different status categories:
  - a. Red which means that the document is not in use.
  - b. Yellow which means that the document is a draft which is currently under development, so changes can occur.
  - c. Green which means that the document is the current applicable version.
- (v) **Publicised:** The input for this column is either 'Yes' or 'No'. If 'Yes', the document has been published and can be regarded as the governing document. If 'No' the document is a draft.
- (vi) **Approved version:** Used for keeping track of latest updates in terms of date for latest change and the current version number.

(vii) **Remarks:** The column is used for document history and comments. Every entry in this column start with the date for the entry, e.g. '20/10/2022 The document title have been changed from x to y'.
