3 THIS DOCUMENT

In this Annex the Danish KmToll Domain are illustrated by use of figures.

In addition, to the figures in this Annex, the Danish Road Directorate display an interactive map of the entire tolled road network divided into segments through an online map-viewer. The map-viewer can be found using the following hyperlink:

<https://vejdirektoratet.maps.arcgis.com/apps/mapviewer/index.html?web-map=eb65a3e2512e4544bc7d9bae6114fdac>

The following legend applies to the map:

- Low Emission Zones will be indicated by a blue cross-hatched area.

- Borders between municipalities will be indicated by a thick green line.

- Segments will be indicated by a thick red line.

- Segment points will be indicated by a green dot.

A full list of segments within the KmToll Domain can be found as an annex to the KmToll Law (available with Danish headlines). The list of segments can be found using the following link:

<https://www.retsinformation.dk/eli/lta/2023/763>
